

Cervul Website Kickoff

Standard Options

Our past work

1. <https://www.poweragcy.com>
2. <https://www.maybach-media.com>
3. <https://overflow.io>
4. <https://ecom-now.webflow.io>
5. <https://cervul.com>
6. <https://www.adguru.ai>
7. <https://www.nureachmedia.com>
8. <https://dagarmedia.webflow.io> (not done yet)

Note: These past projects that are made by us are used as our themes makes production time quicker for the client and cheaper. Simple changes such as images and smaller design content is allowed for these kinds of projects.

Time Allotment: Typically 2 weeks max

Price: Price is determined on the number of pages and amount of content needed to be changed on these websites. Prices for these models start at \$1500.

Custom Options

Where your dreams are made reality!

Note: Our Custom Sites are one of a kind and come from your imagination with a splash of ours. We only drive to make the clients astonished at what they thought was not possible. While these sites do tend to look amazing, quality does come at a price.

Time Allotment: Typically 2-4 weeks depending on the workload of the project and clients ability to follow our track path.

Price: Price is determined on the number of pages, content, specific design, special features. Prices for these sites are averaging around \$2000

Our Procedure

1. Intro Call

Note: Communication over Zoom where we will be able to find out about you, your business, and what your expectations and requirements are for the project. Once the call is over we move on to the next step..

2. Proposal signed/Deposit paid

Note: After the call we will send over a proposal with the Amount the project will cost along with terms and conditions. Once this project is signed and paid for we will begin the project.

3. Start of project

Note: Projects are usually started 1 business day after proposal and deposit are paid. The client will get updates throughout the process of the site getting built and will need to check and verify that it's getting built to their satisfaction.

4. Website is almost done 80% mark

Note: Once the project gets to this point there will be a review session with one of our team members or the head developer. They will need Copy to fill throughout the site and would need to understand any changes that you have in mind before getting to the next phase.

5. Project Completion

Note: The Project is complete after reviewing one last time with the client. Once the remaining payment is made we will help transfer over the website and make the transition as smooth as possible.
